

Smile!

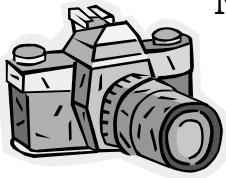

GCCLC will present a series of three basic workshops to introduce you to your digital camera, led by **Gary Wade**.

At the Computer Learning Center (Gate 2 at the Fairgrounds)

You may register for any or all of these workshops, at whatever level you are in your digital camera experience and comfort. \$10 each or \$30 for all 3

Monday, July 12 2:00-4:00 p.m. Cost \$10.

In this workshop you will learn how to insert the batteries and memory cards, what the various cables and other pieces are for, and how to take basic snapshots, including focusing, zooming, and using the flash.

Monday, July 19, 2:00-4:00 p.m. Cost \$10.

In this workshop you will learn how to match special lighting or action situations to the various controls on your camera, resulting in much improved picture taking.

Monday, July 26 2:00-4:00 p.m. Cost \$10.

In this workshop you will learn to import your pictures into computer so they can be edited, how to get them printed from a local drugstore, and how to email them.

If time permits, we will look briefly at uploading to a website to share digital albums far and wide, or, alternatively, an introduction to editing pictures with the free Picasa program.

your

There are only 8 places available for each workshop - so sign up now!
